## PROFILE SUMMARY

MCA student (Patna Women's College, 2025–27) and BCA graduate (80.2%, 1st Division) who builds complete web applications — frontend, backend and database — using Python (Flask), Node.js, JavaScript, Java and MySQL. Built **VeriSync**, a multi-factor attendance platform (face + QR + OTP) with role-based access and AES-encrypted biometrics; completed **3 technical internships** in Java, Android and web development. Seeking a web / full-stack development internship to contribute to a real product team.

## TECHNICAL SKILLS

**Programming Languages:** Java, Python, JavaScript, TypeScript, C, C++, SQL, HTML5, CSS3
**Web Development:** Flask, Node.js, Express.js, React.js, REST APIs, Bootstrap, session authentication (Flask-Login, express-session), role-based access control
**Databases:** MySQL, SQLAlchemy, JDBC, NeDB, ER modelling, normalization (1NF–BCNF), schema design, SQL & PL/SQL
**Security & Computer Vision:** OpenCV, face_recognition (dlib), AES-256-GCM encryption, OTP & QR verification, password hashing (PBKDF2, bcrypt)
**Tools:** Git, GitHub, GitHub Actions & Pages, VS Code, Postman, Anaconda, Power BI | Studied: JWT/OAuth, Pandas, scikit-learn, TensorFlow/Keras, Tableau, R
**Spoken Languages:** English, Hindi

## PROJECTS

**VeriSync – Multi-Factor Attendance System** | Python, Flask, MySQL, OpenCV, AES — View Code

- Attendance is recorded only after three checks pass: **face verification → single-use, time-limited QR token → hashed email OTP**; a unique constraint blocks duplicate marks.
- Designed a 14-table MySQL schema; built session-based login with role-based access (student / faculty / admin), faculty dashboards with CSV reports, an admin panel with audit log, digital ID cards and timetables.
- Stored faces only as AES-256-GCM-encrypted embeddings — raw face images are never saved.

**Personal Portfolio Website** | React, TypeScript, Vite, GitHub Actions — Live Site · View Code

- Responsive portfolio with data-driven project pages, category filters and resume download; deployed automatically through a CI/CD pipeline (GitHub Actions → GitHub Pages).

**STRIDE – eCommerce Store** | Node.js, Express.js, NeDB, JavaScript — View Code

- Single-page shop with search, filters and sorting, persistent cart, 3-step checkout and per-user order history, served by a REST API with bcrypt-hashed passwords and session-based auth.

**SmartCV – Resume Builder** | Flask, MySQL, HTML, CSS, JavaScript

- Users enter their details; the Flask backend validates and stores them in MySQL and generates the resume layout dynamically — built the full flow from form input to rendered page.

**Airlines Reservation System** | Java, JDBC, MySQL

- Complete booking workflow with JDBC integration, a normalized database schema and modular, object-oriented backend logic.

## INTERNSHIP EXPERIENCE

**Java Development Intern** — Industry Internship Program, India — *Remote*

- Built Java applications with MySQL integration as part of a remote development team.

**Android Development Intern** — Industry Internship Program, India

- Identified and fixed user-facing issues in a Women Safety App (SOS alerts and live location sharing).

**Web Development Intern** — Industry Internship Program, India

- Gathered requirements and implemented frontend and functional changes across multiple feedback rounds.

## KEY ACHIEVEMENTS

- **1st Prize – Online Coding Quiz**, National Coding Week 2026, Patna Women's College (19 Sep 2026): scored 58/60, Rank #1.
- **Rank #2 (Top 3%) –** Promptathon 5.0, PromptNexus · NexusAI (Sep 2026): L5 Master Architect in Narrative & Storytelling AI.
- **C-DAC Patna Drone Bootcamp – Grade A+** (MeitY, SwaYaan, Aug 2026) | **Android App Development – A Grade** (Mar 2026) | 1st Division throughout.

## EDUCATION

**MCA** — Patna Women's College (Autonomous), Patna University — Pursuing · 2025 – 2027
**BCA** — Satyanarayan Sinha College — 80.2% · 1st Division · 2021 – 2024
**Intermediate** — Swami Sahajanand College — 75.8% · 1st Division · 2019 – 2021
**Matriculation** — Manas International School — 70.8% · 1st Division · 2019

## CERTIFICATIONS & TRAINING

Cybersecurity Fundamentals • Cybersecurity Bootcamp • Power BI Data Visualization • Data Entry Operator • YISL AR/VR Workshop, IIT Patna • Internship certificates (Java, Android, Web)
