# AYUSHI KUMARI

MCA Student | Web Developer (Fresher) | Full-Stack (Flask · MySQL · JavaScript)
ayushisharma88639@gmail.com | +91 88639 90562 | LinkedIn | GitHub | Jehanabad, Bihar

## PROFILE SUMMARY

MCA student (Patna Women's College, 2025–27) and BCA graduate (80.2%, 1st Division) who builds complete applications — frontend, backend and database — using Python (Flask), Java, JavaScript, MySQL and Android. Built VeriSync, a multi-factor face-recognition attendance platform with JWT, role-based access and AES encryption; completed 3 technical internships; won 1st prize in the Online Coding Quiz (58/60, Rank #1) and secured Rank #2 (Top 3%) in Promptathon 5.0. Seeking a web development internship to contribute to a real product team and grow.

## KEY ACHIEVEMENTS

- **1st Prize – Online Coding Quiz, National Coding Week 2026** (Dept. of Computer Applications, Patna Women's College, 19 Sep 2026): scored 58/60 (97%), Rank #1 on the SkillNexus platform; questions covered C pointers, memory management and debugging. Received winner's certificate.
- **Rank #2 (Top 3%) – Promptathon 5.0 by PromptNexus · NexusAI:** L5 Master Architect in Narrative & Storytelling AI; 100 PNXP, 85% domain score, special recognition for "Speed Sync" (Sep 2026).
- **Hackathon participant:** built **SurakshaCheck**, a scam/fraud verification tool (website + WhatsApp chatbot) that helps elderly citizens check suspicious calls, messages and links.
- **C-DAC Patna Drone Bootcamp – Grade A+** (MeitY project SwaYaan, Aug 2026) | **Android Development course – A Grade** (6 credits, Mar 2026) | **1st Division** throughout entire academic career.

## TECHNICAL SKILLS

**Languages:** Java, Python, C, C++, SQL, JavaScript, HTML5, CSS3

**Web Development:** HTML, CSS, JavaScript, Bootstrap, Flask, REST APIs, JWT authentication, role-based access control (RBAC); studied React.js, Node.js, Express.js

**Database:** MySQL, JDBC, ER modelling, normalization (1NF–BCNF), schema design, SQL & PL/SQL queries

**AI / ML & Computer Vision:** OpenCV, face_recognition (dlib), NumPy, prompt engineering; studied Pandas, Matplotlib, scikit-learn, TensorFlow/Keras (MCA coursework)

**Security:** AES encryption, JWT, RBAC, OTP & QR-code verification, cybersecurity fundamentals

**Mobile & Emerging Tech:** Android app development (SOS alerts, live location); drone & allied technology (C-DAC bootcamp); AR/VR fundamentals (WebXR, A-Frame, Tinkercad) and Stanford design thinking (YISL workshop)

**Data Analytics:** Power BI (dashboards & reports); studied Tableau, Excel, R (statistical analysis), Data Mining

**Tools:** Git & GitHub, VS Code, Postman, Anaconda/Conda

**CS Fundamentals:** OOP, Data Structures & Algorithms, Software Engineering (SDLC, UML, testing), Computer Networks

## INTERNSHIP EXPERIENCE

**Java Development Intern** — Industry Internship Program, India *Remote*
- Built Java applications with MySQL integration as part of a remote development team.

**Android Development Intern** — Industry Internship Program, India
- Identified and fixed user-facing issues in a Women Safety App (SOS alerts and live location sharing).

**Web Development Intern** — Industry Internship Program, India
- Gathered requirements and implemented frontend and functional changes across multiple feedback rounds.

## PROJECTS

**VeriSync – Face Recognition Attendance System** | Python, Flask, MySQL, OpenCV, JWT, AES GitHub
- Full attendance platform with student / faculty / admin roles; every attendance mark needs **face verification → QR-code scan → OTP check**.
- Designed the MySQL schema; built JWT-based login, role-based access, face-matching pipeline, faculty dashboards, admin panel, attendance reports, digital ID cards and timetables; secured data with AES encryption.

**Airlines Reservation System** | Java, JDBC, MySQL
- Complete booking workflow with JDBC integration, a normalized database schema and modular, object-oriented backend logic.

**eCommerce Website** | Python (Flask), HTML, CSS, JavaScript GitHub
- Responsive shopping site with product catalog API, cart persistence and order handling.

**SmartCV Website** | Flask, MySQL
- Full-stack resume-builder web app: users enter their details, the **Flask backend** validates and stores them in **MySQL**, and the resume layout is generated dynamically from the saved data.
- Handled the complete flow end to end — form input → backend routes → database storage → rendered resume page.

**SurakshaCheck (Hackathon)** | Website + WhatsApp Chatbot
- Scam/fraud verification tool for elderly citizens to check suspicious calls, messages and links.

**LifeBridge – AR + VR Emergency Support (Team Infinity)** | YISL Workshop, IIT Patna *Sep 2026*

- Ideated with a 6-member team an AR/VR emergency-support system that guides bystanders through the first critical minutes after an accident while alerting emergency services and sharing the accident location.
- Applied Stanford Design Thinking (empathize → define → prototype → test) and delivered a 2-minute startup pitch among ~20 teams.

**Women Safety App** | Android

- Emergency SOS alerts, live location sharing and built-in safety tips.

**Power BI Dashboard** | Power BI

- Interactive dashboards that turn raw data into clear visual insights for analysis and reporting.

**Connect 4 Game** | OOP, 2D Arrays

- Two-player game built with object-oriented concepts and 2D arrays.

**GenAI Dependency & AI Competency Gap – Student Research Project** | MCA 2026–27 *In progress*

- Team research study (guided by Ms. Richa Verma) on how Generative AI use affects knowledge retention, independent problem-solving and career readiness in higher-education students; mixed-method design with questionnaire, knowledge tests and interviews (target sample 120–200).

**Web mini-projects (GitHub)** | HTML, CSS, JavaScript

- Portfolio • AI Resume page • Calculator • JavaScript Game • WebTask

## EDUCATION

**MCA** — Patna Women's College (Autonomous), Patna University — Pursuing · 2025 – 2027
**BCA** — Satyanarayan Sinha College — 80.2% · 1st Division · 2021 – 2024
**Intermediate** — Swami Sahajanand College — 75.8% · 1st Division · 2019 – 2021
**Matriculation** — Manas International School — 70.8% · 1st Division · 2019

## MCA COURSEWORK (2025–27)

**Semester I:** Software Engineering, Advanced DBMS (SQL, PL/SQL, normalization, transactions), Design & Analysis of Algorithms, Data Communications & Computer Networks, Python Programming (OOP, NumPy, Pandas, Flask), Data Visualization (Tableau / Power BI)

**Semester II:** UI/UX Designing & API Development (HTML5, CSS3, JavaScript, React.js, Node.js, Express.js, REST APIs, JWT/OAuth, MySQL), Data & Web Mining, AI & Machine Learning (regression, decision trees, SVM, neural networks, TensorFlow/Keras), Optimization Techniques, Statistical Analysis using R, Mini Project I

**Semester III (current):** Advanced Web Designing using J2EE (Servlets, JSP, JDBC, MVC), Cloud Computing, Big Data Analytics (Hadoop, HDFS, MapReduce, NoSQL), Digital Marketing & E-Commerce, Mini Project II

## CERTIFICATIONS & TRAINING

- **Online Coding Quiz – 1st Prize Winner's Certificate** — Patna Women's College, National Coding Week, 19 Sep 2026
- **Bootcamp on Drone and Allied Technology** — C-DAC Patna (MeitY, Govt. of India), 18–24 Aug 2026, Grade A+
- **Promptathon 5.0** — PromptNexus · NexusAI, L5 Master Architect, Rank #2 (Sep 2026)
- **Android Application Development** — Patna Women's College, Vocational Certificate Course, A Grade (Mar 2026)
- **Cybersecurity Fundamentals** • **Cybersecurity Bootcamp** • **Power BI Data Visualization** • **Data Entry Operator (DEO)**
- **Young Innovators STEM Lab (YISL) Workshop – AR/VR** — IIT Patna, 1 Sep 2026 (supported by U.S. Dept. of State & IUSSTF); WebXR, A-Frame, Meta Quest, Stanford Design Thinking
- **Internship certificates:** Web Development, Java Development, Android Development
